Hello RRT Members,

We are planning a conference call/meeting and would appreciate your participation. Here is the background and call information:

One of the items we planned to cover during our October RRT meeting was revision of the Regional Contingency Plan (RCP). Similar to the Sub-Area Contingency Plans, it is time to update this document as many items are outdated and/or do not clearly define R8 response-related policies or priorities. We initiated some of this when we drafted an update to the Bioremediation Annex but realized many more elements needed attention. To avoid further delays, we decided this project should not wait for the spring RRT meeting.

We request your participation on **Tuesday 12/18 at 10:00 am MST** for a kickoff meeting/conference call to discuss our general plans for the RCP document, the process we expect to follow and what we expect we'll need from you, the RRT

members. You can also “meet” our contractors who will be assisting with the project – Mr. Jeff Pritchard and Mr. Ryan Lunt with Seagull Environmental Technologies, Inc. Basically, we expect to mimic the Region 7 RCP, which I have attached for your reference. Also, the current R8 RCP can be found here:

Thank you all for your continued assistance and participation on the RRT.

We look forward to talking with you soon.

Regards, Gina
